Program Description

Explore the most up-to-date methodologies, knowledge, and tools in the web development field and build in-demand skills that can get you hired upon graduation. In this program, you'll develop knowledge of software development frameworks and tools like Angular, and programming languages including HTML, CSS, and JavaScript. Establish your skills in problem-solving, coding, and teamwork, through hands-on exercises and a final project.

A Diploma in Front-End Development can open flexible career opportunities in a variety of industries.

The median annual salary of a Front End Developer in Canada is \$62,400 CAD – that's more than 50% higher than Canada's average salary in 2020!*

**Salaries may vary depending on the company and position. The average salary for this role is taken from the Government of Canada's Job Bank information for the particular National Occupational Classification (NOC). General Canadian average salary information is based on the Canada Revenue Agency's T1 tax filer data from 2020.*

Why Choose the Co-op Program?

Co-op or "co-operative education" combines academic study with a work placement related to your program. This popular Canadian learning approach provides you with hands-on experience in your study field, quality references, and networks that will give you a competitive edge for finding future work and growing your career. Program orientation and pre-placement support prepare you to find a suitable placement. Throughout the work experience term, you will receive support and guidance from a dedicated Co-op Program Advisor who will ensure you receive all the support you need to successfully complete the program.

Program Schedule

Evening Program Schedule

38-40 WEEKS ACADEMIC TERM
Total weekly study hours = 20

**WORKPLACE SKILLS & TOOLS COURSE &
ALL OTHER PROGRAM COURSES**

TUE-THU*
5:30 - 9:00 PM
Class

FLEXIBLE
9.5 Hours per Week
Asynchronous Learning

The Workplace Skills and Tools course takes place for all students during their first session. **Students will also attend this course on campus on the very first Monday of the program. Students should also anticipate additional time for completing homework and projects.*

Co-op Schedule

Students who choose the co-op program will begin a co-op placement after completing their academic study portion. The co-op will last for 30 weeks for evening schedule students. Your daily co-op placement work schedule will vary, depending on the needs of your employer.

Diploma In Front End Development Courses

The curriculum is subject to change.

ACADEMIC STUDY

FRONT END BASICS - HTML, CSS, AND INTRODUCTION TO PROGRAMMING

Learn how to build and design webpages using HTML and CSS, the two core technologies for building web pages. You'll also get an intro to JavaScript, rounding out the basic knowledge that will help you to identify, analyze, design, and maintain web pages.

FRONT END BASICS - JAVASCRIPT

Learn how to write scripts in the JavaScript programming language to create dynamic, interactive front-side web products and faster user experiences.

FRONT END DEVELOPMENT - ANGULAR BASICS

Develop the skills and knowledge required to build advanced webpages and web products using Angular, an open-source front-end framework.

FRONT END DEVELOPMENT - ANGULAR REACT

Learn to build advanced web pages and web products using open-source, front-end frameworks. You'll also explore UI/UX to learn how to build easy to use websites with end users front of mind. This course involves teamwork and a presentation in front of peers and managers.

WORKPLACE SKILLS & TOOLS

Learn the fundamental skills necessary for the Canadian workplace. Students will learn topics such as oral and written communication, computer skills, and workplace preparation. The course will also cover the necessary skills needed for academic study in their program.

CO-OP WORK EXPERIENCE

CO-OP WORK EXPERIENCE

During the co-op work placement, students will put their skills into practice in a local workplace in a position related to their specific program objectives. Students will be required to complete job tasks as assigned to them by the employer. In addition, students are required to provide regular feedback (monthly) on their placement experience to Greystone College using prescribed reporting forms.

THE CO-OP WORK EXPERIENCE COULD INCLUDE ENTRY-LEVEL POSITIONS IN ROLES LIKE

- Internet Site Developer
- Web Developer
- Web Manager
- Web Programmer
- Website Developer
- Webmaster
- Electronic Business Website Developer

Bring your own device

To ensure our students have the most transformative learning experience, we recommend the following minimum device requirements:

- Windows 10 or Mac OS v.10.7 or higher
- Processor: Intel I5-6400 or Ryzen 5 1400 minimum
- Memory: 8 GB recommended
- Screen: 14 inches recommended
- Ports: minimum 1 USB 3.0 port
- Built-in camera, speakers and microphone
- Connectivity: WI-FI
- Speed: 50Mbps download speed recommended
- External numeric keyboard (optional but recommended)

Students are provided with a free Microsoft Office 365 account during their studies.
